DECLARATION UNDER 37 C.F.R. §1.132

Sir:

I, Dr. Arnold P. Nerenberg, hereby declare as follows:

1. I am an applicant of the above-identified patent application, and inventor of the subject matter contained therein.

2. I printed a single copy of my book "Death Visualization Therapy" for my own use on March 20, 1999, and I did not publicly distribute or make publicly available said single copy.

3. I printed 110 copies of said book "Death Visualization Therapy" on December 20, 1999, as denoted in an INVOICE in Exhibit A, for subsequent distribution to my patients and others.

4. Aside from said single copy printed on March 20, 1999, I did not print any copy of said book "Death Visualization Therapy" prior to the printing of said 110 copies on December 20, 1999.

5. I applied for a United States copyright registration of said book "Death Visualization Therapy" on December 22, 1999, and a United States copyright registration was granted for said book on December 27, 1999 under the copyright registration number TX 5-122-680.

6. I filled out the application for the United States copyright registration of said book "Death Visualization Therapy" on December 22, 1999 solely by myself without assistance or advice of anyone,

including without assistance or advice of legal counsel.

7. When I filled out the application for the United States copyright registration of said book "Death Visualization Therapy" on December 22, 1999, I believed that the "Date of Publication" in Block 3 of the copyright application meant the date of printing and, inasmuch as I did not read the instructions for Block 3, I did not know that the "Date of Publication" meant the date for which said book became publicly available.

8. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
